

**BULLETIN OF THE RUSSIAN ACADEMY OF SCIENCES. PHYSICS
SUPPLEMENT**

PHYSICS OF VIBRATIONS

Volume 58, Number 1, 1994

CONTENTS

NONLINEAR OPTICS

- Influence of Phase-Matching Conditions on the Spectrum of Four-Photon Scattering
with One-Photon Resonance
N.I. Koroteev, A.N. Naumov, and A.M. Zheltikov 1
- Problem of Inversionless Amplification
O.A. Kocharovskaya, P. Mandel, and Ya.I. Khanin 10
- Influence of a Strong Field on the Relaxation of a Three-Level Atom
E.V. Radeonychev and O.A. Kocharovskaya 16
- Suppression of Stimulated Brillouin Scattering in an Optical Fiber Using a Broadband Pumping
G.A. Lyakhov, A.I. Minchenko, and O.V. Umnova 22

NONLINEAR ACOUSTICS

- Propagation of a High-Power Acoustic Beam in a Semiconductor Accompanied
by Phonon–Plasmon Interaction
V.V. Krutov and V.N. Streltsov 26

NONLINEAR DYNAMICS IN OPTICAL SYSTEMS

- Spatiotemporal Instabilities in the System of Optically Bistable Coupled Thin Films
Yu.A. Logvin, A.M. Samson, and V.M. Volkov 30
- Spatial and Temporal Instabilities of Light Fields in Optically Bistable Resonatorless Elements
O.S. Bondarenko, V.A. Trofimov, Yu.N. Karamzin, and I.G. Zakharova 37

NONLINEAR DYNAMICS OF ATMOSPHERE

- Violation of Exponential Divergence of Trajectories in a System of a Hydrodynamic Type with a Chaos
R.V. Bekryaev 49
