

PHYSICS OF VIBRATIONS

Volume 10, Number 4, 2002

CONTENTS

REMOTE SENSING OF NATURAL MEDIA

Development of Phase Methods of Sounding of Shallow Sea Using Ambient Noise <i>S.I. Kutakov and I.A. Maslov</i>	185
Experimental Study of Factors Affecting Acoustic Field Damping in Shallow Sea <i>S.I. Kutakov and I.A. Maslov</i>	198
Theory of Monitoring System Based on Parametric Wave Arrays <i>A.G. Inozemtsev, S.A. Inozemtsev, S.I. Kutakov, I.A. Maslov, V.D. Rubtsov, and D.V. Rubtsov</i>	206
Laser Beam Diffraction at Thin Phase Grating (Fresnel Diffraction) <i>S.M. Kolomiets</i>	212
Interference Method for Determining Refractive Index of Medium or Speed of Sound in This Medium <i>S.M. Kolomiets</i>	222
Two-Position Systems in Remote Determination of Microphysical Properties of Scattering Media <i>A.V. Bukharin</i>	228

PHASE TRANSITION

Possibility of Existence of Ferroelectric Ice in Natural Environment <i>G.A. Lyakhov and D.M. Mazo</i>	236
---	-----

PLASMA PHYSICS

Correlation Functions and Effective Interaction between Electrons in Nonequilibrium Plasma of Electrons and Heavy Ions <i>S.P. Smolin</i>	242
--	-----
