

PHYSICS OF WAVE PHENOMENA

Volume 14, Number 3, 2006

CONTENTS

OPTICAL SPECTROSCOPY

- Spectroscopic and Acousto-Optic Studies of Relaxation Processes in Isotropic Phase of Liquid Crystals
L.M. Sabirov and D.I. Semenov 1

OPTICAL MEASUREMENT

- Laser and Broadband Irradiation Methods in Cosmetology and Dermatology
V.S. Melnik 29

PARAMETRIC ACOUSTICS

- Sound Generation in Parametric Acoustic Resonator with External Excitation
V.G. Mikhalevich and V.N. Streltsov 40

REMOTE SENSING OF NATURAL MEDIA

- Application of Radiative Transport Equation to Problem of Remote Determination of Angular Halo Size
G.P. Arumov, A.V. Bukharin, and N.S. Erokhin 44

- Shipping Noise for Diagnostics of Acoustic Properties of Near-Bottom Channel
S.I. Kutakov and I.A. Maslov 51

- Characteristics of Normal Waves Excited by Vertical Arrays in Shallow Sea
A.I. Belov and G.N. Kuznetsov 66
