## Optical Spectroscopy of Crystals

- Spectroscopy of the Tm:Sc<sub>2</sub>SiO<sub>5</sub> Laser Crystal in Different Orientations  
*Yu. D. Zavartsev, A. I. Zagumennyi, Yu. L. Kalachev, S. A. Kutovoi, V. A. Mikhailov,  
and I. A. Shcherbakov* 1
- Optical Properties of Lithium Niobate and Lithium Tantalate Crystals with Impurities  
and Defects  
*V. S. Gorelik, N. V. Sidorov, and A. I. Vodchits* 10
- 

## Nonlinear Optics

- Elliptically Polarized Breather in the Nonintegrable Problem of Laser Radiation Propagation  
through an Isotropic Gyrotropic Nonlinear Medium  
*V. A. Makarov, V. M. Petnikova, P. S. Ryzhikov, V. V. Shuvalov, and A. V. Yadvichuk* 20
- S-Matrix Approach to the Problem of High-Harmonic Generation in the Field of Intense  
Laser Wave  
*A. I. Magunov and V. V. Strelkov* 24
- 

## Quantum Electrodynamics of Superlattices

- Quantum Well of a New Type Based on Gapless Graphene with Different Fermi Velocities  
*P. L. Pekh and A. P. Silin* 30
- 

## Plasma Sources and Amplifiers

- Collective and Single-Particle Cherenkov Effects in a Spatially Bounded System  
Near the Nontransparency Band  
*I. N. Kartashov and M. V. Kuzelev* 35
- Cherenkov Instability of a Magnetized Beam-Plasma System with Allowance for a Momentum  
Spread of Beam Electrons  
*I. N. Kartashov and M. V. Kuzelev* 43
- Plasma High-Current Generator of Wideband High-Power Microwaves with Magnetic  
Self-Insulation  
*V. O. Litvin and O. T. Loza* 52
- Plasma Relativistic Microwave Noise Amplifier with the Inverse Configuration  
*S. E. Ernyleva and O. T. Loza* 56
-

## Detectors of Microwave Radiation

Wideband Antenna for Detecting High-Power Microwave Radiation Pulses <i>D. K. Ulyanov, S. E. Andreev, I. S. Alexeev, and R. R. Krymov</i>	60
--	----

---

## Underwater Acoustics

Spectrograms of Single-Type Modes and Their Application to Problems of Sound Source Localization in Oceanic Waveguides <i>G. N. Kuznetsov, V. M. Kuz'kin, S. A. Pereselkov, and D. Yu. Prosovetskiy</i>	64
---	----

---

## Wave Propagation on the Sea Shelf

Calculation of the Sea Wave Run-Up on a Sloping Beach <i>M. A. Shermeneva</i>	74
Numerical Simulation of the Transformation of a Nonlinear Wave at a Finite Depth <i>K. Yu. Bulgakov</i>	78
