Distributed worldwide by Springer. *Physics of Wave Phenomena* ISSN 1541-308X.

Interaction of Radiation with Matter

- Comparison of the Laser Desorption/Ionization Methods for Detecting Metal Complexes
A. S. Borodkov, I. I. Kuz'min, N. B. Polyakov, A. A. Grechnikov, and S. S. Alimpiev 243
-

Quantum Theory of Superlattices

- Tamm Minibands in Graphene-Based Planar Superlattices
P. L. Pekh and A. P. Silin 249
-

Optical Spectroscopy of Inhomogeneous Media

- Low-Frequency Laser Spectroscopy of Cylindrical Nanoparticle Suspensions
A. F. Bunkin, V. G. Mikhalevich, S. M. Pershin, V. N. Streltsov, and N. V. Tcherniega 254
- Time Dependence of the Luminescence from a Polymer Membrane Swollen in Water:
Concentration and Isotopic Effects
*N. F. Bunkin, G. A. Lyakhov, V. A. Kozlov, A. V. Shkirin, I. I. Molchanov, M. T. Vu,
I. S. Bereza, N. G. Bolikov, V. L. Fouilhe, Igor S. Golyak, Ilya S. Golyak, I. L. Fufurin,
V. S. Gorelik, E. V. Uspenskaya, H. S. Nguyen, and S. V. Gudkov* 259
- Raman Scattering and Photoluminescence in Sodium Uranyl Acetate Polycrystals
V. S. Gorelik, A. A. Anik'ev, V. M. Korshunov, Yu. P. Voinov, and A. A. Loboyko 272
-

Generation and Transformation of Optical Radiation in Semiconductors

- Semiconductor Disk Laser in the Nanosecond Lasing Mode
S. I. Derzhavin, S. M. Klimentov, S. V. Podmazov, and G. G. Novikov 276
- Nonlinear Absorption of Non-Chain HF Laser Radiation in Germanium
E. E. Alekseev, K. N. Firsov, S. Yu. Kazantsev, I. G. Kononov, and V. E. Rogalin 280
-

Microwave Radiation in Fiber Optical Waveguides

- Microwave Signal Delay Line Based on Multicore Optical Fiber
*O. N. Egorova, M. E. Belkin, D. A. Klushnik, S. G. Zhuravlev, M. S. Astapovich,
and S. L. Semojnov* 289
-

Underwater Acoustics

Methods for Studying Water Characteristics and the Spatial Orientation of Vector-Scalar Module <i>A. E. Bakulin, G. N. Kuznetsov, and V. P. Maslyanyi</i>	293
Interferometric Method for Estimating the Velocity of a Noise Sound Source and the Distance to It in Shallow Water Using a Vector-Scalar Receiver <i>G. N. Kuznetsov, V. M. Kuz'kin, S. A. Pereselkov, I. V. Kaznacheev, and V. A. Grigor'ev</i>	299
Laboratory and Modeling Study on Modulated Wave Properties <i>W.-Y. Hsu, I. V. Shugan, W.-S. Chiang, R.-Y. Yang, and H.-H. Hwung</i>	307
Numerical Modeling of Wave Development under the Action of Wind <i>D. V. Chalikov and K. Yu. Bulgakov</i>	315
