Applied Acoustics

Nonlinear Acoustics in Medicine: A Review

O. V. Rudenko

73

Optical Spectroscopy

The Spectroscopic Study of Indocyanine Green J-Aggregate Stability
in Human Blood and Plasma

*D. S. Farrakhova, I. D. Romanishkin, D. V. Yakovlev, Yu. S. Maklygina,
T. A. Savelieva, L. Bezdetnaya, and V. B. Loschenov*

86

Improvement of the Measurement Accuracy for the Fabry–Perot Interferometer
Length in Systems with Spectral Encoding of Broadband Radiation

I. G. Likhachev and V. I. Pustovoy

91

X-Ray Spectroscopy

Combined Diffraction and Absorption Band Filtration of a Polychromatic X-Ray Spectrum

*A. G. Turyanskiy, V. M. Senkov, M. Z. Ziyatdinova, M. Yu. Kupriyanov,
M. M. Aksenova, and Kyaw Zaw Lin*

96

Hydrodynamics of the Marine Environment

Breaking Solitary Waves Run-Up on the Inclined Beach

I. V. Shugan and Y.-Y. Chen

104

Mode Selection in Oceanic Waveguides

*V. M. Kuz'kin, Yu. V. Matvienko, S. A. Pereselkov,
D. Yu. Prosovetskii, and E. S. Kaznacheeva*

111

Remote Sensing of Natural Environments

Estimation of the Influence of Meteorological Factors on the Aerosol Lidar Signal
in Tunnels above the Elbrus Volcano Chamber

*A. V. Myasnikov, S. M. Pershin, M. Ya. Grishin, V. A. Zavozin,
V. S. Makarov, and A. A. Ushakov*
