

**BULLETIN OF THE RUSSIAN ACADEMY OF SCIENCES. PHYSICS  
SUPPLEMENT**

**PHYSICS OF VIBRATIONS**

Volume 58, Number 2, 1994

**CONTENTS**

**QUANTUM OPTICS**

- Quantum Ergodicity of an Excited Two-Level Atom  
*S.V. Prants and L.E. Kon'kov* ..... 57
- Ultimate Potentialities of Laser Precise Polarimetry: Application of High-Precision  
Nonlinear-Optical Polarization Devices and Polarization-Squeezed States of Light  
*D.Yu. Paraschuk and A.S. Chirkin* ..... 63

**LASER PHYSICS**

- Dynamics of Fields in Optically Coupled Lasers with Random Fluctuations of Eigenfrequencies  
*S.N. Kozlov and V.V. Likhanskii* ..... 70
- Self-Consistency of Inversionless Laser Basis Schemes  
*O.A. Kocharovskaya and E.V. Radeonychev* ..... 79

**WAVE PROPAGATION IN INHOMOGENEOUS MEDIA**

- Locally Isotropic Inhomogeneous Medium: Birefringence in the Three-Dimensional Case  
*A.Yu. Savchenko and B.Ya. Zel'dovich* ..... 86
- The Wave Field in a Random Medium with Large-Scale Inhomogeneities  
*L.E. Chernyshov* ..... 95

**RADIOACOUSTICS**

- Near-Interface Detection of Acoustic Disturbances in a Dense Medium Using Scattering  
of Microwave Radiation by Sound  
*F.V. Bunkin, V.I. Golovanov, G.A. Lyakhov, N.V. Suyazov, K.F. Shipilov, and E.A. Vinogradov* ..... 103
